Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 4/18/06 has been entered.

Election/Restrictions

In view of the allowability of generic claim 1 (see below), the requirement for species election between prokaryotic and eukaryotic cells, and between regulatory networks and metabolic networks, as first set forth in an office action mailed 9/30/03, is hereby withdrawn. Original claims 3 and 5 directed to the nonelected species have been cancelled; however, the limitations recited in the cancelled claims may be "recaptured" under new claim numbers.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: applicant's arguments set forth in the response filed 4/18/06, that none of the prior art of EDWARDS, BERRY and/or VARNER teach or fairly suggest cultivating genetically engineered cells such that they EVOLVE to a desired optimal function under cultivation

conditions which allow for such evolution, as opposed to merely inducing cells in culture to produce a desired result, are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Claims 1-2, 4, and 7-10 are allowed.
